ES-204 - Beyond race, ethnicity, and gender: fostering full diversity in midwifery(Live)

Conference: ACNM 62nd Annual Meeting & Exhibition
Date: May 22 2017 8:45AM - 9:45AM
Program Code: ES-204

Speakers:
Ira Kantowitz-Gordon

Course Description:
The goal of diversity in the midwifery profession is the development of midwives that represent and reflect the rich diversity of the families we serve. However, diversity is more than race, ethnicity and gender. There are divisions within the profession in areas such as educational pathways, abortion care, and circumcision. We must think beyond the physical differences among us and include diversity in values and beliefs. In this presentation by the ACNM Ethics committee we will show how a broader definition of diversity supports greater civility and respect among midwives who agree to disagree
